P R O J E C T S

RideIT App

I've build a Android app named as Ride IT which helps students and staff members traveling to college from a long distance.

Portfolio Website

Nowadays every business need to know that a employee is good at his skills or not to show mine skills, I've build this Portfolio website.

Authentication

Authentication is a very important part of an app, This authentication app was basically build for RideIT app.

FunctionUp Projects

I've build some projects during my cohort session they are real-industries based projects, You can view them in my Github profile.

C E R T I F I C A T E S

MS-CIT (2018)

To up scale my skills and a curiosity to learn more about computer, I have undertaken and successfully completed this course with 91% from D.J Doshi Gurukul College of Commerce.

Android Development (2021)

Android development provide me the intermediate information on how to build a android app using Android Studio IDE which I loved to understand more in future.

Introduction to AWS IAM (2021)

This online course helped me to learn basic of how to use Amazon Web Services(AWS) Identity and Access Management(IAM) and provided me a glimpse of a cloud computing.
